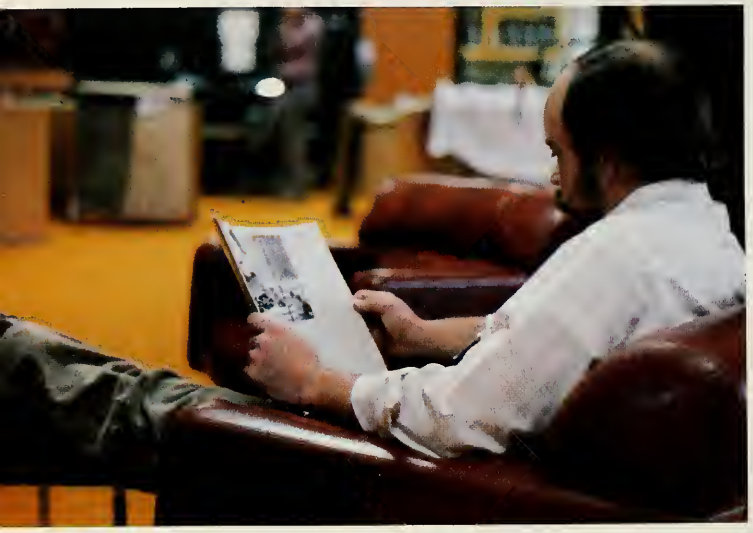
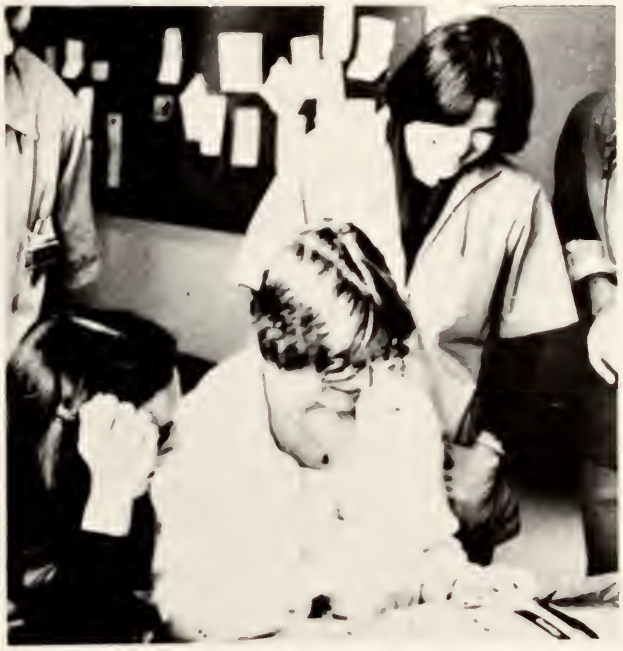
VETERINARIUS 1980

College Of Veterinary Medicine
University Of Georgia

Photo Contest Winners

First Place Winners:
Hugh Worsham — Dog and Woodpile
Gary Ackerman — Cat in Tree
Rick Henshaw — Horse and Donkey
Kris Wilson — Goat
Second Place Winners:
Rick Henshaw — Dog Wino
Carl Dutterer — Cat Silhouette
Joe Wells — Burro
Allison McNally — Piglets





OUT OF ORDER

THE 1980 VETERINARIUS IS PROUDLY DEDICATED TO DR. JOSEPH D. EDENS,

This year, we are proud to dedicate the Veterinarius to Dr. Joe Edens. His retirement this year will be a great loss to both the Vet School and the surrounding community. His sunny smile has brightened so many of our days and his dedication as evidenced by his many years of service should be an inspiration to us all. Dr. Joe, the Class of 1980 would like to say "thank you" for the benefit of your experience and for your friendship.

AND TO THE TEACHING ANIMALS OF THE COLLEGE OF VETERINARY MEDICINE.

CHRISTIAN VETERINARY FELLOWSHIP

So now, since we have been made right in God's sight by faith in his promises,
We can have real peace with him because of what Jesus Christ our Lord has done for us.
For because of our faith, he has brought us into this place of highest privilege where we now stand,
and we confidently and joyfully look forward to actually becoming all that God has had in mind for us to be.
We can rejoice, too, when we run into problems and trials, for we know that they are good for us — they help us learn to be patient.
And patience develops strength of character in us and helps us trust God more each time we use it until finally our hope and faith are strong and steady.
Then, when that happens, we are able to hold our heads high no matter what happens, and know that all is well,
for we know how dearly God loves us, and we feel this warm love everywhere within us because God had given us the Holy Spirit to fill our hearts with his love.
When we were utterly helpless with no way of escape, Christ came at just the right time and died for us sinners who had no use for him.
Even if we were good, we really wouldn't expect anyone to die for us, though, of course, that might be barely possible.
But God showed his great love for us by sending Christ to die for us while we were still sinners.

VETERINARIUS STAFF

With the 1980 Veterinarius, we've tried to record the most important of our hopes, dreams, setbacks, and successes from the first fraternity rush throughout the year to graduation. The 1980 Staff members have contributed many hours towards this end; Mark Mosher, Rick Henshaw, Ross Cowart, Dawn Cason, and Mike Heinen ('81); Gene O'Neal, Jeri Christley, Dawn Draper, Jane Hillsman, Helen Hamilton, and Cheri Sherwood ('82); Patty Brunton, Bill Seanor, Win Burnett, and Joy Morris ('83). Special thanks are also due to Dr. Michael Dykstra for darkroom privileges, to Jackie McMullan for general help and advice, and to everyone who didn't make a face at the camera.

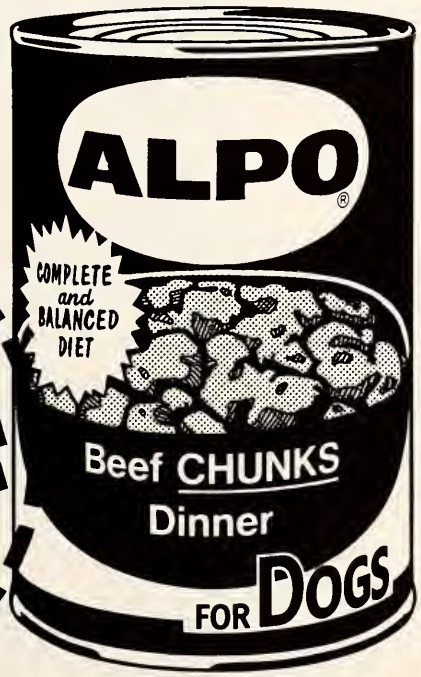
ADVERTISEMENTS

When you add a little of this, you add a lot of REAL BEEF



You've got a kennelful of meat-lovers. And there's nothing more likely to make them grateful than adding some ALPO to their dry.

ALPO Beef Chunks Dinner gives them what most other dog foods don't. Lots of real beef, plus hearty meat by-products. Soy for better balance. And vitamins and minerals to complement the nutrition of your present feed. You can also serve it as a complete ration straight from the can. Either way, don't champions like yours deserve at least a little ALPO?

Congratulations
and

New for puppies

Now you can double their early protection

With new 'Vanguard DMP' you can start a puppy's vaccination program against two major disease problems as early as 6 weeks of age.

'Vanguard DMP' combines the proven protection of Norden's exclusive distemper-measles vaccine with the new parainfluenza antigen. Although maternal parainfluenza immunity may be low enough in puppies to permit vaccination as early as 4 weeks of age, *[1] maternal distemper antibodies have been present even at 12 weeks of age.

Now, with 'Vanguard DMP,' puppies between 6 and 12 weeks of age can receive their first parainfluenza vaccination*[2]. And protection against distemper is achieved with either the measles or the distemper antigen, depending on the puppy's maternal distemper titer.

To enhance the puppy's respiratory protection, Norden recommends revaccination at 12 weeks of age or older with 'Vanguard DA_2PL.' This provides both the distemper and parainfluenza protection needed, while adding the leptospirosis, hepatitis, and the CAV-2 type respiratory protection.

Vaccinate all puppies as early as 6 to 12 weeks of age with new 'Vanguard DMP.' More than ever, it's the first choice for first protection.

*[1] University of Illinois, Veterinary Professional Topics, No 5, 1975 (reporting on research done at Cornell University).

*[2] Puppies vaccinated at 6-8 weeks of age should be revaccinated with 'Vanguard DA_2P' in 3-4 weeks.
